

# Policies Map

## The Policies Map illustrates geographically the application of the policies in the Core Strategy.

Councils are required to maintain a Policies Map (previously called a Proposals Map) which illustrates geographically the application of the policies in the adopted development plan. The Policies Maps can be viewed via [www.stratford.gov.uk/corestrategy](http://www.stratford.gov.uk/corestrategy). Hard copies of the Policies Map (including Insets) will not be published as part of the final printed plan but can be provided, at a charge, if requested.

### Contents

Policies Map – covering the District in two parts [1:60,000 @ A1]

### Flood Risk (Policy CS.4)

For the most up-to-date flood risk maps please refer to the Environment Agency website at [www.gov.uk/government/organisations/environment-agency](http://www.gov.uk/government/organisations/environment-agency).

### Disclaimers

1. The Policies Map has been produced using the District Council's Geographical Information System. This allows the Policies Map, including its associated Insets, to be viewed at scales other than those specified on them. It is stressed that there is a limited degree of tolerance with regard to the manner in which the Policies Map has been produced and therefore it should not be interpreted other than at the scale specified.
2. The centre of a line which defines a designation on the Policies Map represents the precise boundary to be applied.
3. The responsibility for making certain designations and defining their extent lies with other agencies. Where these are identified on the Policies Map, the District Council cannot be held responsible for the boundaries shown. This relates to Ancient Monuments and Parks & Gardens of Historic Interest (Historic England) and Ancient Woodlands and Sites of Special Scientific Interest (Natural England).
