

Further Examiner Question 4/4/19

Dear Joanne

I have a further query which I would be grateful if you could pass on to the Parish Council.

Policy SE4

In the Explanation to policy SE4, on page 49 of the plan, there seems to be some supporting text missing , as the last paragraph ends in an incomplete sentence which reads :

More people are working from home in a wide variety of jobs and professions and the evidence shows Brailes, with over 70% of businesses

Apologies for this, we missed it in the proof reading. It should read:

“.....the evidence shows Brailes, with over 70%of businesses being run from home, is no exception.”

I would be grateful for the Parish Council's views. If there is some wording missing, can I ask that they provide it please?

As with my previous questions, please note that these are public documents and the answers and any associated documents will also be in the public domain. Both my questions and the responses should be placed on the Councils' websites as appropriate.

Kind regards

Barbara
