

Community Infrastructure Levy (CIL) Charging Schedule (Update)

There is a need to index link CIL contributions annually in order to keep the levy responsive to market conditions. Regulation 40 of the CIL Regulations 2010 (as amended) requires that CIL payments must be index linked to the RICS CIL Index published in November of the preceding calendar year by the Royal Institute of Chartered Surveyors.

The formula set out in the Regulations has been followed and the percentage change of CIL charges from 1st January to 31st December 2020 equates to a 5.7% increase from the 2018 base rate.

All CIL liable planning applications that are determined between 1 January and 31 December 2020 will include indexation in the calculation of the chargeable amount as set out in the below table.

Indexation Update January 2020

Development Sector	2018 Base Charge	2019 Charge (0.32% increase from base rate)	2020 Charge (5.7% increase from base rate)
