

Education Technical Note

Assessment of capacity at state funded primary and secondary schools in Stratford on Avon District

Warwickshire County Council Education Services have undertaken a desktop assessment of existing capacity within state funded primary and secondary school provision in Stratford on Avon District using the number of dwellings on potential reserve sites and pupil forecasts over the next five (primary) to seven (secondary) years. The pupil forecasts together with consideration of the potential anticipated expansion as a result of already approved housing, have been used to provide an indication of the estimated number of additional dwellings each education planning area could accommodate over the next five years.

It should be noted that whilst assessment has primarily been made using current forecasts for the next 5 to 7 years the longer term impact of some of the larger approved strategic sites has been taken into consideration.

Education Planning Area	Number of additional dwellings area can accommodate	Further information
Alcester	645	Includes the areas of Alcester, Bidford on Avon, Temple Grafton, and Salford Priors
Henley	490	Includes the areas of Claverdon, Henley in Arden, Tanworth in Arden and Wootton Wawen
