

Valued Landscapes – revised March 2022

(1) View from various points along Bascote Road looking towards the church

Notes – Were designated as “6” on original legend, but arrow was pointing in wrong direction.

Grid reference – 409647 (just one reference given; views taken from several points)

(2) Views from Church Road looking out of the village towards Bascote

Grid ref: 410650 From Bridge

Grid ref: 411651 From Co-op

Notes - Were designated as “5” in the original document.

(3) View from SM9/9a and Collingham Lane

From SM9 Grid ref: 419655

From Collingham lane Grid ref: 419651

Notes – Were designated as “4” in original document

(4) View from the corner of Thorn Way - two shots, taken from the iron gate; the entrance to the sheep grazing field, on the bend of Thorn Way at intersection of three footpaths.

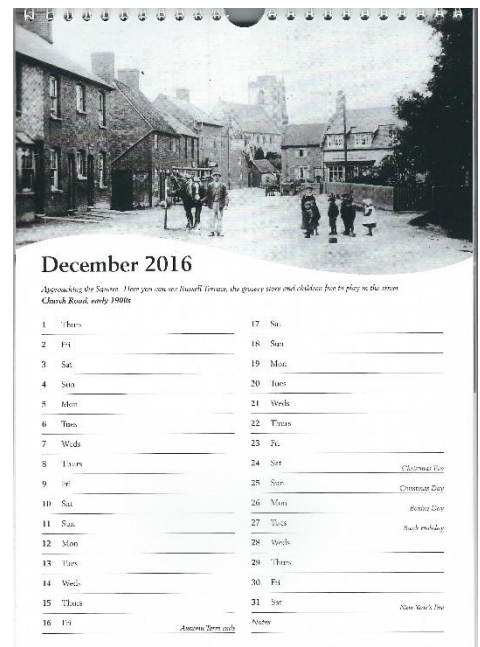

Grid reference for both – 414650

(5) Views across the allotments – chosen to represent all views across the allotments

Grid ref - 411652

(6) View of Church Road with harvester pub and church in view

Chosen to demonstrate and preserve an iconic view, little changed in architecture since the 1900s – see Calendar →

Grid Ref - 413652

(7) **From Footpath SM3 looking towards Long Itchington settlement** with Model Village some way behind the photographer.

Pastureland and open countryside between main settlement and Model Village – designated as countryside outside the BUAB.

Note – Were designated as views “7” in original NP document

Grid reference – 416648

(8) **From SM2**

NB – Unable to take picture at this time – see below

The view of valued Landscape 8 looks back east / south east towards the village from footpath SM2 which is part of the Millennium Way. The view has the tower of the church in the background with the undulating features of the old abandoned medieval village in the foreground. The view includes the village cricket ground.

Access to the best viewing position is currently difficult due to the work being carried out by Sustrans to construct the “Lias Line” cycling and walking track along the course of the old railway line. The suggested viewing point is on Millennium Way (footpath SM2) at **grid reference 400654**. The footpath is shown on the OS map and runs westwards from the west end of the village and joins Stonebridge Lane just over a mile from the edge of the village.
