Very small	Less than 5ha	0.5	0.25	0.18
Small	≥0.5ha and <1ha	1	0.5	0.18
Medium	≥1ha and <5ha	1.5	0.75	0.18
Large	5ha or over but less than 10ha	2	1	0.18
Very Large	10ha or over	2.5	1.25	0.18

Background

1. Financial contributions towards the monitoring of Biodiversity Net Gain (BNG) are a necessary part of the delivery of the statutory BNG requirement (Environment Act, 2021) for development that is not exempt of BNG.
2. The tariff applies to all significant on-site enhancement. Significant enhancementsⁱⁱ are areas of habitat enhancement which contribute significantly to the proposed development's BNG, relative to the biodiversity value before developmentⁱⁱⁱ.

Retention of existing habitat does not count as an on-site enhancement.

What counts as a significant enhancement will vary depending on the scale of development and existing habitat, but these would normally be:

- habitats of medium or higher distinctiveness in the biodiversity metric
 - habitats of low distinctiveness which create a large number of biodiversity units relative to the biodiversity value of the site before development
 - habitat creation or enhancement where distinctiveness is increased relative to the distinctiveness of the habitat before development
 - areas of habitat creation or enhancement which are significant in area relative to the size of the development
 - enhancements to habitat condition, for example from poor or moderate to good
3. Habitats to be monitored will be those identified within the Habitat Management and Monitoring Plan submitted and approved by the local planning authority.
 4. Off-site enhancements are to be subject to legal agreements that will incorporate other monitoring mechanisms and associated tariffs.

5. The tariff will be payable to the determining local planning authority in which the development occurs and will cover the time and expense to undertake the following activities:
 - a. Preparatory reading
 - b. Desk based assessment
 - c. Review of any information submitted as evidence of management
 - d. Communication between parties
 - e. Site visit in the years detailed in approved documentation (e.g. Habitat Management and Monitoring Plan), which will also include:
 - i. Mileage and time to and from site
 - ii. Site monitoring evaluation report detailing findings
 - f. Any advisory notes relating to compliance
 - g. Sign off procedure.
 - h. Administration
6. Any non-compliance enforcement actions will be subject to the relevant local planning authority's enforcement policies and procedures.
